## ORDER FORM

### BEFORE PLACING YOUR ORDER:

Our firebaskets **MUST** be installed in a vertically vented fireplace with a fully functional chimney or in a pre-fab firebox with at least a 7" type B flue pipe.

It is the customer/homeowner's responsibility to check and be certain that the fireplace is in proper working condition before installation.

Homefires suggests having a certified chimney sweep clean and inspect the fireplace before placing an order.

In-stock orders must be paid in full before being processed for shipment. A 50% deposit is required for all items not in stock. The balance is due at shipment.

Please take care to make proper selection. Homefires is not responsible for knowing the specifics of your local building and safety codes and will not accept returns based on related issues without a 20% restocking fee.
